

```
.target {  
  position: relative;  
  
  &::after {  
    --target-size: -8px;  
    content: '';  
    position: absolute;  
    inset: var(--target-size);  
  }  
}
```

```
.target {  
  position: relative;  
  
  &::after {  
    --target-size: -8px;  
    content: '';  
    position: absolute;  
    inset: var(--target-size);  
  }  
}
```

Can anyone use this?
